

## Iron Core Vacuum Drying Equipment Manufacturer

Our Product Introduction

for more products please visit us on [jc-transformer.com](http://jc-transformer.com)

### Basic Information

- Place of Origin: China
- Brand Name: JC
- Certification: SGS CE, UL
- Model Number: JC450
- Minimum Order Quantity: 1 pcs
- Price: consult
- Packaging Details: Export standard packaging
- Delivery Time: 5 days
- Payment Terms: L/C, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100pcs/month

### Product Specification

- Pouring Pot Size (mm): 2400X3000
- Mixing Bowl: 2X300L
- Vacuum Unit: SV300B/ZJY-300
- Working Pressure: Positive Pressure
- Measurement: Static Mixing
- Control Mode: Touch Screen
- Casting Process: Vacuum Casting
- Color: Customized
- Dielectric Constant: 3.2
- Dielectric Strength:  $\geq 20\text{KV/mm}$
- Hardness: Shore D 85
- Heat Resistance: 120
- Impact Strength:  $\geq 15\text{KJ/m}^2$
- Material: Epoxy Resin
- Tolerance:  $\pm 0.1\text{mm}$

### Product Description

10-110KV dry type insulation busings used for the Vacuum Casting Equipment(Static Mixing)

#### MY COMPANY:

My company is a high-tech private enterprise, it has a experienced term, which more than ten years engaged in research and development, design, manufacture and installation of vacuum equipment. Besides, it is not only committed to build high quality brand about vacuum equipment, but it also has products, which are widely used in impregnating, epoxy resin pouring, drying, and note oil processing in some industries (like metal heat treatment, transformer, and transformer device, reactor device, regulator device, high pressure electrical, motor, capacitor, switch and other similar industries). Relying on strong technical advantages and scale advantages, and it also dedicated itself to develop Vacuum application technology and relative vacuum equipment. Main products are different kinds of vacuum casting equipments, vacuum drying equipment, vacuum impregnation equipment, vacuum oiling device equipment, and vacuum heat treatment equipment.

The most important of this company is product quality, and it strictly follows international quality certification system, implementation of quality policy about creating a Kerry brands, building first-class equipment, following innovation for development, and being in accordance with customer service. It also provides the best solution, higher quality products and more valuable and efficient after-sales service for new and old customers.

Our Product Introduction

#### Resin VPG injection equipment (static mixing)

Applications: 110-1100KV insulation operation bars

Flow chart

#### Vacuum Casting Equipment (Static Mixing)

Applications: 110-1100KV dry type insulation bushings

Flow chart

1. Device vacuum casting system, vacuum mixing system, electric heating systems, refrigeration systems, an independent vacuum system, pressure systems, measuring systems.
2. Uses the latest static mixing, mixing tank.
3. And condensate filter is our independent research and development of double filtration filters effectively protect the vacuum pump.
4. Pouring cans of clean, energy-efficient heating systems, mixing bowl steady heat conduction oil heating system is adopted.
5. Touch screen +PLC Control, automatic.
6. Vacuum systems to mixing bowl, pouring cans, independence air and high efficiency.
7. The pouring pot is pressurized, pressure system, make the product more stable and reliable.
8. Precision metering pumps, metering system used for measurement.

**Wuxi Jiachen Power Electronics Equipment Co., Ltd.**
